**RE: SECOND GENERATION FURNISHING INC.**

To Whom It May Concern:

We are very pleased to have this opportunity to highlight the work of *Second Generation Furnishing Inc.*

*Second Generation* has been the millwork contractor on several of our recent projects, specifically schools and other institutional buildings.

Given the unforgiving schedules associated with educational projects, *Second Generation* has always been able to accelerate the second half of the construction period and ultimately ensure on-time project completion.

Excellent quality control, proactive and consistent coordination between trades and consultants and very few additional charges are some of the characteristics of *Second Generation* project approach.

We have enjoyed working with both the office and field personnel of this company.

As an architectural office, Allen & Sherriff Architects Inc. strongly recommends that *Second Generation Furnishing Inc.* is given the fullest consideration as a millwork contractor.
