Re: Professional Reference

To Whom It May Concern:

Over the years, IBI Architects have had the pleasure of working with Second Generation Furnishings on numerous educational facilities including Pierre Elliott Trudeau Secondary School, Maple High School, Emily Carr Secondary School, Stephen Lewis Secondary School, and more recently on Glenn Gould Public School for the York Region District School Board.

Our overall experience with this company has always been extremely positive. I always look forward to Second Generation's thorough review of tender documents, and extensive list of queries. This is an attitude that they carry forth throughout the project: well organized; very cooperative with all stakeholders; and totally committed to meeting the designated schedule. Their dedication and tireless work ethics always result in a superior product that is intrinsic to any successful project.

I am always extremely pleased when they are listed as part of the General Contractor's list of sub-trades; with their overall performance, professionalism, commitment, and depth of experience that they bring to the project, and would not hesitate in recommending this firm to any General Contractor or Client, and would not have any issues working with them again in the future.

Yours very truly,
