Attention: Mr. Robert Antonel

RE: LETTER OF RECOMMENDATION

Dear Sir:

Second Generation Furnishings has worked with our firm for several years now, on a number of school and school-related projects. Their professional approach to providing service, coupled with their 'state-of-the-art' manufacturing facility, have set the standard for the supply and installation of millwork for our type of institutional projects.

Their shop drawings are accurate and precisely drawn, and schedules for production are almost always met. Installation is handled professionally. Their knowledge of the materials, construction and fabrication lead to a well-produced product that meets our expectations, but more importantly, satisfies the expectations and requirements of our clients.

I would not hesitate in using the services of Second Generation Furnishings for future projects, and would be confident in recommending them to others.

Yours very truly,

MAKRIMICHALOS • CUGINI
