Re: King City Public School

Dear Mr. Antonel,

The demolition and replacement of the existing King City Public School with a new facility was successfully completed on time thanks to Bondfield Construction and their team of sub-trades and suppliers including Second Generation.

The quality and detail of the millwork shop drawings supplied by Second Generation helped us to expedite their review and approval and ensured that any on site issues were sorted out before manufacturing and delivery to site.

As always we were happy with the quality and finish of the millwork once installed and this was a big contributor to the overall quality of the finished school.

We look forward to working with the team at Second Generation on future projects, thank you again for being part of the success of this project.

Sincerely;

Peter Moffet
