To Whom It May Concern,

We are pleased to provide this letter of reference for Second Generation Furnishings Inc.

We have enjoyed a very co-operative working relationship with Second Generation on the \$30 million Niagara College Applied Health Institute in Welland, Ontario. It is worth noting that this project was delivered on time despite very aggressive timelines to suit the college's academic timelines and funding requirements. We were very pleased with the on-site job foreman and office project manager's understanding, coordination, site control, and scheduling of this project.

We have found Second Generation to be knowledgeable, conscientious, and have carried out the work with a high standard of expertise. They have always worked in a very team oriented and professional manner as well as strict adherence to the project schedule.

We look forward to our next opportunity to work with Second Generation Furnishings.

Regards,

Yours truly,
architects Tillmann Ruth Robinson inc.
